## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see pages 7-12 of "Remarks", filed April 5, 2006, with respect to the rejection(s) of claim(s) 2-82 under 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Shanahan, U.S. Patent No. 6,496,692.

### ***Double Patenting***

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422

F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 2-82 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-9 of U.S. Patent No. 6,496,692.

Although the conflicting claims are not identical, they are not patentably distinct from each other because both inventions are drawn to programming telephones with files for use as indicia of an incoming communication. Specifically, the present invention calls for the files to be video files while U.S. Patent No. 6,496,692 calls for the files to be audio files. The examiner contends, however, that video files can be considered audio files since video data is known to be "accompanied" with audio data and the examiner takes official notice as such.

At the time of invention, it would have been obvious to a person of ordinary skill in the art to modify the present invention with audio data so a user can hear the video in addition to viewing the video.

***Allowable Subject Matter***

4. Claims 2-82 are allowable once the double patenting rejection is overcome.
5. The following is a statement of reasons for the indication of allowable subject matter: Prior art fails to suggest or render obvious the method of customizing a wireless telephone by programming a video file into the wireless phone for use as an indicia of an incoming call as explicitly described.

***Conclusion***
